EXPERIENCE

Freelancer

Freelancer

November 2023 - Present, Jaipur

- Engineered responsive and user-centric websites, exceeding client expectations for seamless online experiences.
- Mastered diverse tech stacks (React, Node.js, MongoDB, Flutter, Dart) for innovative, tailored project delivery.
- Boosted client website traffic by 30% through strategic SEO implementation and improved online visibility.
- Simultaneously managed multiple projects, ensuring precision, timely delivery, and high client satisfaction.

Backend Developer

RVJ Infotech

May 2023 - November 2023, Jaipur

- Improved backend efficiency by 20% using Ruby on Rails, reducing page load times.
- Enhanced interactivity with API creation, resulting in a 15% improvement in response times.
- Developed a data scraper, increasing extraction efficiency by 25%.
- Achieved a 99.9% server uptime by promptly identifying and resolving errors, and implemented comprehensive test cases, reducing post-release issues by 20%.

Web Developer Intern

RVJ Infotech

December 2022 - May 2023, Jaipur

- Demonstrated versatility in Ruby on Rails through diverse projects during an internship.
- Led end-to-end implementation of a feature-rich online cart, from frontend design to backend logic.
- Ensured secure transactions by integrating a reliable payment gateway into the cart system.
- Improved user engagement with a robust mailer system, notifying users about cart activities for a personalized shopping experience.

EDUCATION

Bachelor of Technology

Shri Bhawani Niketan Institute of Technology and Managment · Jaipur, Rajasthan · 2024 · 8.76

PROJECTS

Cart

<https://github.com/Sarikasoni23/Cart>

- Create a Ruby on Rails shopping cart project from scratch, including user authentication, product management, checkout with payment integration, and an optimized user experience, followed by testing and deployment.

QuizIT

<https://github.com/Sarikasoni23/QuizIT>

- Crafted from the ground up, this student quiz application utilizes Flutter and Dart for a user-friendly interface. The backend, powered by MongoDB, Express, and Node.js, ensures efficient data management and seamless communication. Students benefit from an engaging platform that offers quizzes, assessments, and a comprehensive learning experience.

Medical Center

<https://github.com/Sarikasoni23/Medical-Center>

- This project offers a user-friendly interface for managing the entire healthcare system, covering tasks like prescribing medication and monitoring stock. Accessible from both on-site terminals and the internet, patients (students and staff) can conveniently view their prescriptions from anywhere.
